## Via Ferrata Routes on Shepherd's Bluff in Děčín

Bohemia's only via ferrata (iron trail) installation is located right in the heart of Děčín. Several anchored climbing routes scale the cliff from the Elbe River bank up to the restaurant terrace at the top. The ascent takes about an hour, offering unforgettable views of the river, the castle, and the town. The whole family can enjoy the view from spots that once were the exclusive domain of experienced rock climbers. A via ferrata ascent should pose no problem for beginners or for physically active children aged ten and up. Take advantage of the services of an experienced guide to help along the way and spot you en route. Climbs take **1 to 1.5 hours** depending on the route and previous experience. All routes are one-way.

The walk back down takes **10 to 15 minutes** on hiking trails.

The via ferrata operates year round. **Access is prohibited when the route is wet, during storms, or in conditions of reduced visibility.**
